Onsite vs Offsite work model

- We have our dedicate offices and infrastructure (we keep update our infrastructure to meet industry standards)
- With the help of dedicated marketing team we hire quality resources to meet our client requirements
- We encourage our clients to go with 1:3 ratio (1 onsite and 3 offsite) Resources, This model will be more efficient in both cost and quality deliverables.
- We price our resources at 1:3 combination a flat rate of **\$215** per hour(which includes 1 onsite resource and 3 offsite resources)
- We have the ability to onboard resources (including internal interviews, client interviews, BGV...etc)
 - Onsite - Average 3-4 weeks
 - Offsite - Average 1-2 months (In india majority of companies require minimum 1-3 months of notice)
